

Sprint 1 Plan

Product Name: Visual Data Studio

Team Name: Deer Squad

Sprint Name: Sprint 1

Completion Date of the Plan: 7/03/17

Revision Number: 2

Revision Date: 07/09/2017

Scrum Master (Sprint 1): Ching Lam

Goal for Sprint 1:

Figure out the code given by the sponsor and learn the languages necessary to implement our own website components.

Task Listing:

User Story 1:

- As a user of the web, I want url access to the cartograms in a browser, so that I can access the information conveniently.

Tasks / Estimated Time (Hours)

- Contact Tim about the code/Git and examine the code given. / 1
- Figure out the languages necessary to implement our own components / 2
- Draft ideas for what we will implement into the website. / 3

Total for User Story 1: 6 hours

User Story 2:

- As a curious web designer, I want clean and readable html code, so that when I press F12 in the browser, I can understand how the elements are made.

Task Description / Estimated time in hours:

- Outline a draft of the potential website format. / 1
- Learn HTML/CSS. / 10

Total for User Story 2: 11 hours
